Understanding AI's Impact on Your Role | takearoundabout.com
Adrian K. L. Ang | Updated March 2026

General Disclaimer

This tool is provided for informational and awareness purposes only. Results are AI-generated, indicative, and may vary between searches. They do not constitute professional career, legal, employment, or HR advice, and should not be used as the sole basis for individual employment decisions.

Ratings reflect general occupational trends, not individual performance or suitability for any specific role. The builder accepts no liability for decisions made based on these outputs.

Data Sources

ESCO v1.2

Occupation skills profiles are drawn directly from the ESCO v1.2 REST API (aligned to v1.2.1), published by the European Commission DG Employment, Social Affairs and Inclusion. Skills marked ESCO v1.2 are canonical taxonomy entries, citable by URI. Licensed under Creative Commons CC BY 4.0.

For authoritative occupation and skills data, refer to esco.ec.europa.eu

ISCO-08

Occupation codes displayed in this tool are sourced from ISCO-08 (International Standard Classification of Occupations, 2008 revision), published by the International Labour Organization (ILO). Copyright 2012 International Labour Organization.

ISCO-08 codes are accessed via the ESCO v1.2 REST API, which maps each ESCO occupation to exactly one ISCO-08 unit group. Codes and group names are used for reference purposes only. The ILO name and emblem are not reproduced. No endorsement by the ILO is implied or claimed.

AI-Generated Analysis

Automation ratings, career paths, prompts, and skill relevance scores are generated by Claude (Anthropic). These outputs are indicative only and reflect general occupational patterns. They do not represent the views of the European Commission, the ILO, or any other institution whose data is referenced in this tool.

Singapore

This tool operates under Singapore law. The following applies to users in Singapore:

- No personal data as defined under the Personal Data Protection Act (PDPA) is collected. Job titles entered are not personal data.
- Vercel Analytics captures anonymous, aggregated traffic data only - country, device type, and referrer. No individual user is identifiable.
- This tool does not constitute regulated financial, legal, career, or employment advice under Singapore law.
- Users should exercise independent professional judgement before acting on any outputs.

- The tool aligns with the IMDA Model AI Governance Framework principles of transparency, human oversight, and advisory-only use.

Singapore note

If this tool is used by an organisation to inform workforce or employment decisions about specific individuals, the organisation bears responsibility for ensuring compliance with applicable employment law, including the Employment Act and relevant MOM guidelines.

European Union

The following applies to users in the European Union:

- This tool does not constitute a high-risk AI system as defined under the EU AI Act (Regulation 2024/1689). It is informational and advisory only, and does not make automated decisions about individuals.
- It is not designed to make or support individual employment decisions without human oversight.
- GDPR: No personal data is collected or processed. No consent mechanism is required at this stage. If email collection is introduced in future, a privacy policy and consent mechanism will be added.
- EU users are encouraged to apply their own professional judgement when interpreting results and should not treat outputs as a substitute for qualified HR or career advice.

EU AI Act classification

This tool is classified as minimal risk under the EU AI Act. It does not make decisions about people - it provides occupational trend information to inform human decision-making. No mandatory obligations apply beyond basic transparency, which is provided throughout the tool.

Intellectual Property

The design, code, and editorial content of this tool are the original work of Adrian K. L. Ang. Unauthorised reproduction, redistribution, or commercial use is not permitted.

ESCO v1.2 data is used under Creative Commons CC BY 4.0. Attribution is provided in the tool footer and methodology panel.

ISCO-08 occupation codes are used under attribution to the International Labour Organization (ILO). Copyright 2012 International Labour Organization. Accessed via the ESCO v1.2 REST API under ESCO's CC BY 4.0 licence.

AI-generated outputs produced by this tool are generated fresh per session and are not stored or retained by the builder.

Limitation of Liability

To the fullest extent permitted by applicable law, the builder shall not be liable for any direct, indirect, incidental, or consequential damages arising from the use of or reliance on this tool. This includes but is not limited to employment decisions, career changes, or workforce planning actions taken based on the tool's outputs.
